

VELA SIDE TABLE

Design Gianluca Pasotti

S•CAB

Side table Vela in tecnopolimero riprende le linee dolci e arrotondate del lettino omonimo, ma ben si adatta ad accompagnare qualunque seduta da esterno come pratico appoggio per piccoli oggetti. Particolarmente utile, essendo dotato di un ripiano estraibile che può diventare pratico vassoio.

Struttura in tecnopolimero - Impilabile

Side table Vela in technopolymer matches the soft and rounded lines of the homonymous sunbed, but is well suited to accompany any outdoor chair as a practical support for small objects. Particularly useful, equipped with a removable top that can become a practical tray.

Technopolymer structure - Stackable
