

Squid nasce dalla necessità di creare un tavolo versatile a seconda del top, adattabile ad ambienti diversi, e quindi declinabile in svariate forme e dimensioni; un tavolo in grado di accogliere piani in hpl ma anche in marmo e altri pregiati materiali. Il fulcro del progetto è la gamba in pressofusione di alluminio.

Squid comes from the need to create a versatile table according to the top, adaptable to different environments, and therefore available in various shapes and sizes; a table that can feature tops made of HPL but also of marble and other precious materials. The fulcrum of the project is the die-cast aluminium leg.

Squid naît du besoin de créer une table qui s'adapte partout en fonction du plateau, et donc déclinable dans plusieurs formes et dimensions; une table capable d'accueillir des plateaux en hpl mais aussi en marbre et en autres matériaux nobles. Le cœur du projet repose sur l'enjambement en aluminium coulé sous pression.
